Emulsions & Foams (101400)
University of Stuttgart, SoSe 2020
Prof. Cosima Stubenrauch & Apl. Prof. Thomas Sottmann
April, 2020

Dear students,

Welcome! You will find information as well as online teaching materials for the course on the ILIAS page. You need to register for the course. Because of the CORONA situation, the course might be taught online. In the following you will find some general information about the course.

As of this semester the “old” surface and colloids module (6 credit points, 6LP) consists of two courses, each of which providing the chance to obtain 3 credit points (3LP): These two courses are “Emulsions and Foams” (101400) and “Nanoparticles and Nanomotors” (101410).

Due to the current CORONA crisis, we have decided that there will be

- no practical lab part for this course (es wird kein Laborpraktikum geben)
- no change in the number of lectures or credit points.

Information regarding: Emulsions and Foams:

- Lectures will start on 8th of June. Depending on the CORONA situation at the time the lectures will be taught either in the seminar room or online.
- There will be no practical part. Furthermore, there will be no change in credit points or number of lectures.
- The course will be taught in English.
- The slides of the course will be made available online as a pdf to accompany the lecture.
- In case the course will be taught online we will try and arrange dates for “online chats” or “telephone availabilities” so that you can ask questions.
- In diesem Fall sollte es auch einige online „chat“ oder Telefon-Verfügbarkeiten auf Deutsch geben, so dass Sie Fragen stellen können.
- Course materials will be available on ILIAS. Course content is posted on ILIAS.
- If you have any questions, please send an e-mail to Thomas Sottmann: thomas.sottmann@ipc.uni-stuttgart.de (Fragen können auch auf Deutsch gestellt werden).

Regards,
Thomas Sottmann
