

# Herbert Sinner Award 2010

for Dr. Enda Carey

The Herbert Sinner Award is given to young scientists for their outstanding fundamental results during their Ph.D. thesis or during their further scientific career related to the application of detergents and cleansers. It consists of a medal and an amount of Euro 3000 sponsored by Henkel AG & Co. KGaA.

Candidates are proposed by members of the Technology Advisory Board of the business unit detergents of Henkel AG & Co. KGaA. The selection of candidates will be performed by a scientific committee at Henkel AG & Co. KGaA.
